## BRADLEY!

### The Ledger's Choice for President.

EVERY Kentuckian should join every Irishman in a grand celebration this year of grace, 1896. The Legislature will adjourn on St. Patrick's Day.

THE deficiency in Uncle Sam's Treasury for the first twelve days in March is \$3,305,775 09; for the fiscal year, \$20,822,632 41, and for the Cleveland Administration \$133,431,116 17.

A NUMBER of Democratic newspapers have been trying to make it appear that the credit of the state of Kentucky is gone since the Republicans secured control. A circumstance became public at Louisville that fully refutes all such intimations. The Board of Commissioners of the Central Kentucky Asylum for the Insane at Lakeland discounted a note for \$65,000, being a state warrant for that amount drawn by authority of a special appropriation act on account of new buildings. The German Bank made the deal at a running rate of only six per cent. interest. The money was paid over and immediately applied to the payment of claims for the construction and equipment of new buildings.

COLONEL THOMAS J. YOUNG, the able Editor of The Bath County Banner, has been in Frankfort ever since the opening of the Legislative session. He is not only a close observer, but he is a clever politician himself; and what he has to say about the methods pursued by "practical" politicians is entitled to great weight.

In a recent letter to his paper he throws this editorial brickbat:

"Once more all eyes are turned with renewed interest toward Frankfort. That man BLACKBURN seems to have as many lives as a cat. The newspaper correspondents have it 'Blackburn Out,' 'Blackburn Doomed' and other such choice snatches from obituary operas, but that ghost don't down worth a cent. Saturday he had Republicans and sound money Democrats pooling issues and doing it in a hurry too—to prevent him from being elected. This all illustrates the advantage of having true friends and the knowing how. Now, the air is full of mysterious whisperings about bags of tiddle being sent to Frankfort for Joe's use. If ever there was a time when it could be used on this Legislature, now is the time. Men have become tired, mad and disgusted. The session is rapidly drawing to a close. Many never expect to be elected again at best, and now that they see an opportunity to get by a pretty penny, with no one the wiser save by surmise, it is an easy matter to frame an excuse for either voting outright or abstaining one's self so that the same result can be brought about."

GOVERNOR MATTHEWS of Indiana does not think General HARRISON is out of the race for the Republican Presidential nomination. He says he would not be surprised to see the Convention stampede to HARRISON. But, then, Governor MATTHEWS is a Democrat.

THE Ohio Republicans dealt very gingerly with the financial question. They leave their currency declaration to be construed either way. So far, Governor BRADLEY is the only Presidential candidate who has come out in plain, unmistakable language for sound money.

To the average eye not more than 5,000 stars are visible; some persons having extraordinarily strong eyes can see about 8,000 stars. Through the Luck telescope and other powerful instruments about 50,000,000 stars are visible.

A man was fined \$3 for throwing a kiss at a woman who did not care for him. It would be a nice question in law if she really got it, and if she did not get it why should the man pay for it? And if \$3 is the price of a thrown kiss what is one worth at short range with the usual squeeze added?

J. J. Graddy of Lawrenceburg, Ind., was attending school at Lexington. A telegram announcing the death of his mother came on Sunday morning, but was not delivered until Monday afternoon, making it impossible for him to reach home before the burial of his mother. Therefore he has sued the Western Union Telegraph Company for \$1,800 damages.

Will people never learn that a "cold" is an accident to be dreaded, and that when it occurs treatment should be prompt applied? There is no knowing when the trouble will end; and while complete recovery is the rule, the exceptions are terribly frequent, and thousands upon thousands of fatal illnesses occur every year ushered in by a little injudicious exposure and seemingly trifling symptoms. Beyond this, there are today countless invalids who can trace their complaint to "colds," which at the time of occurrence gave no concern, and were therefore neglected. When troubled with a cold use Chamberlain's Cough Remedy. It is prompt and effectual. 25 and 50 cent bottles for sale by J. James Wood Druggist.

### THE LEGISLATURE.

Bills Passed by the Two Houses and Some Other Business Transacted.

FRANKFORT, Ky., March 14.—SENATE.—The house resolution providing for the removal of the remains of ex-Gov. Desha from Georgetown to Frankfort was adopted. At the afternoon session of the senate the following house bills were passed: An act to amend the charter of fourth-class cities. The amendments are the ones agreed to at a conference of the fourth-class cities, an act requiring all railroads of five miles in length or over to run at least one passenger or mixed train each way every day; an act authorizing trustees of county seminaries property and school property owned or held by trustees, by a majority vote of the board to dispose of the same to trustees of common school districts embracing the same. The salary bill to abolish the present system of trustees of public schools and providing for township directors and trustees was defeated for want of the necessary two-thirds vote. The bill to amend the charter of second-class cities was also passed. This is the same bill that the conference was had on some weeks ago, and which passed the house Tuesday.

HOUSE.—The Thorne private brand bill passed the house Friday afternoon just as it came from the senate, all amendments being voted down. It will now go to the governor for his approval or veto. It is one of the most important bills passed at this session, and prohibits the placing of any brand on the government head of a whisky barrel except that of the bona fide maker and distiller. The bill making it a felony to give checks on a bank where the signer has no deposit was passed.

Both are noted criminals in this part of the state. Only a few days ago they cut off the door of their cell, but owing to the vigilance of the jailer they failed to escape.

As an earnest of the democratic senators' good faith, Senator Stephenson gave notice as stated.

## MAIN POINTS

At Issue in the Disputed Venezuelan Boundary Question

Hinge on Documents Lying in the Archives of Spain and Holland.

A Representative of the Venezuela Commission May Be Sent to Madrid and Hague—Commission Expects a Statement of the Case in a Few Days.

WASHINGTON, March 14.—The Venezuelan commission at its regular meeting Friday, with all the members present, virtually reached the conclusion that the main points at issue in the dispute hinge on documents lying in the royal archives of Spain and Holland and perhaps some other countries; that while such documents would probably be quoted by each of the disputants in support of the contradictory claims presented, the duty would devolve on the commission not only to verify by actual examination all such citation, but, if practicable, to develop contemporary documents which might throw strong side lights upon the evidence submitted. While definite action was postponed until the full British and Venezuelan case shall have been formally brought under consideration there remains no doubt that some of the commissioners, or at all events the secretary of the commission, Mr. Malet Prevost, and agents under his direction will soon be sent to Madrid and the Hague. It is explained that this determination is not due to the alleged discovery of misquotations in decrees and treaties already in the commission's possession, but from the conviction that the final decision of the commission ought not to be open to any attack as to inconclusiveness of the pivotal evidence upon which such decision will in all probability be found to depend. In the preliminary investigations of the commission they have been confronted with numerous diametrically conflicting maps and translations. While geological discrepancies are within the power of the commission to harmonize through the enormous mass of corroborative charts, it commands comparatively indecipherable and partial illegibility of royal decrees are thought to be matter which necessitate personal and expert examination.

The commission expects to be in possession of the British blue book as well as the greater part of Venezuela's case, early next week, and in view of this anticipation Mr. Condert and President Gilman, who have hitherto spent little time in Washington, will remain here for the present for daily meetings at which the weighing and comparison of evidence will be prosecuted continuously. No one of the commissioners has yet had an opportunity to carefully examine the British case as the only available copy that has reached them was one of the advance edition sent by Ambassador Bayard to the state department which may contain typographical or other errors incident to hasty preparation.

The regular copies for the commission will arrive here, in all probability, Saturday evening or Monday next. While access to a state department copy has been allowed, there has been no opportunity to examine it fully.
